Drastic Order Expected To Leave 175,000 Idle, Close Many Large Plants

More than 100,000 Employed in Silk Hosiery Mills Will Lose Jobs; All Silk for Next Two Years Will Be Used by Army, OPM Announcement Declares; More Rayon To Be Used

WASHINGTON, Aug. 1. (P) The office of Production Management ordered complete stoppage of all processing of raw silk, effective at midnight tomorrow (Saturday), with the result that hosiery and silk manufacturing operations throughout the country must shut down and leave an estimate 175,000 workers idle.

Priorities Director E. R. Stettinius, Jr., ordered the "freezing" of every bale of raw silk in the nation's mills and warehouses promptly after notification from the army and navy that the military requirements for silk in the next two years will approximately equal the total stocks

MOVE CAUSED BY JAPAN The drastic step is the result of restrictions on trade with Japan, silk producing nation. The curbs on commerce were applied after Japan moved into southern Indo-China, an action which the United States government considered a threat to American interests and security,

The order was an amendment to one issued a week ago which froze only warehouse stocks. Today's order

"No person shall after 12 o'clock midnight on Saturday, August 2, 1941, throw, spin or otherwise process

"A mill which possesses any thrown silk-silk in the semi-processed state, ready for weaving or knitting-may use up the stocks which it possesses". Stettinius said.

Barclay on Bridge

By Shepard Barclay "The Authority on Authorities." Distributed by King Features Syndicate, Inc.

With this kind of bidding, West could easily place the main spade holding in his partner's hand, so led his spade 9. South quickly counted up tricks. He saw two in spades, one each in the red suits and four in clubs, a total of eight. Needing only one more to make his contract, he decided to try the heart finesse, so took the opening spade trick in dummy and led to the heart Q. It lost to the K. Back came the second spade, South letting East win and taking the third, discarding a diamond from his own hand. No matter what he did, he had no way now to gain

down one. If South had known the chances were 3 to 1 he could pick up the This would have lost, but, after

that vital ninth trick, so was

like No. 1 below a better one than No. 2 on which to open the bid-

A A K 8 6 5 ♥J106 ♦ K Q 10 152 TWICE AS PROMISING

Decide (CBS 12:30 p. m.) Actors of tenace for purposes of trying to win a finesse. They look upon the A-J-10 as a sort of secondary proposition. Actually, if you are in a position to make two leads toward it, the A-J-10 is three times as likely to produce a finessing trick. To win with the first combination, you must find the K right where you want it. To win with the second, you can find either the K of Q, or both, in the hand which plays first to your lead, and you fail to win an extra trick with it only when the fourth alternative prevails, with both of those cards in the hand which

plays last.

Big Values For You 6 Days A Week Although A&P Employes Work Only 5 Days!

This week begins for our store employees, what we believe to be the first five day week and the shortest general working hours in any major food retailing organization. Although our stores will continue to serve customers six days a week A. & P. employees will enjoy a five-day week. Their pay will remain the same as for the six-day week. Because our low prices have resulted in increased patronage, we have

been able to further increase our efficiency and reduce our operating expenses and still further improve the working conditions of our employees.

Many people are utterly astounded at the low prices for quality foods in A. & P. Supermarkets. They are getting so much more and better food for the same money that they wonder how we can do it. Frankly, it is simply because A. & P. Supermarket represent a new, more efficient, more economical way of distributing food to the public.

We thank you for your cooperation in making possible this shorter work week for our employees. We in turn, will show our appreciation by making A. & P. a better and better place in which to shop.

Tender, Juicy, Guaranteed A&P Meats!

LOSING SOMETHING! Spends the Day Visiting with Her Many Friends in Grantsville

GRANTSVILLE, Aug. 1 - Mrs. Lucretia Messersmith, Grantsville's oldest resident, marked her ninetyfifth birthday anniversary today, apparently still in the best of health. She spent the day visiting with the many friends who called from far and near, and was the recipient of numerous gifts and greeting cards.

Her hobby has been making rugs and patchwork quilts. Of recent will be represented. months however, her fingers have George Hanna, George M. Boyles of maroon and gold become less flexible and she has been forced to give up the quilt making to some extent, although she has just completed an attractive Personals braided rug. She enjoys reading the papers, which, until a short time Miss Anne Leathers, Riverdale, is Midland, Barton, ago, she was able to do without the visiting at the home of Mr. and Mrs. Oakland. aid of glasses. Tradition Is Broken At Allegany Hospital; **Nurses Not Sorry**

Something in the line of a 'red letter" day was chalked up yesterday at Allegany hospital when another tradition was broken-much to the lik ing of student nurses.

Members of the graduating class were allowed to discard their black hose and shoes for white ones. Other student nurses will step in line with them August 15 by doing likewise. Heretofore, it was black hose and shoes for all except graduate and registered nurses.

A so-called tradition was broken several months when the graduating month was set back from June to September. The "break" didn't go over so well at the time.
